

KOREAN HOSPITAL NAVIGATION HANDBOOK

Brian D. Allgood Army Community Hospital (BDAAACH)

March 2025

Version 26

PURPOSE

Dear Patient,

We recognize that seeking healthcare in a foreign country, particularly at a civilian hospital, can lead to hesitations and concerns due to language barriers, transportation issues, and the stress of navigating an unfamiliar environment and healthcare system.

Our network includes Korean hospitals, which, along with their international clinics, offer top-quality healthcare on the Korean Peninsula. All TRICARE Network Hospitals are accredited by either the Joint Commission International or the Korean Hospital Association. You may be pleased to learn that many medical staff members are proficient in English, and a considerable number have received training in the United States.

We believe this handbook will be a valuable resource to assist you, alleviate your concerns, and address any questions you may have. We encourage you to read through it to better prepare for your visit to a Korean hospital. Please refer to the table of contents as needed.

CHAD C. BLACK
COL, VC
Director

DISCLAIMER:

Brian D. Allgood Army Community Hospital compiled this handbook as a courtesy for its patients. The inclusion of a provider or hospital in this handbook is not an endorsement. The services available at Korean hospitals listed in this handbook are subject to change at any time without notice. Please contact the provider directly to check on status, insurance plan acceptance, and availability. Additional information is available for TRICARE beneficiaries at www.tricare-overseas.com.

MYCARE OVERSEAS BENEFICIARY MOBILE APP & PORTAL

MYCARE™
OVERSEAS

International SOS is honored to continue in our role as the TRICARE Overseas Program (TOP) contractor. We understand that many of our beneficiaries may be deployed or accompanying a sponsor overseas for the first time. As a result, you may be experiencing new languages, assimilating to new cultures, or even learning to navigate new street signs. All of this can be a daunting experience, especially when you first arrive to your Duty Station.

International SOS is committed to providing easy-to-access, high quality health care services, and putting your experience of care at the forefront of all that we do. To this end, International SOS is excited to introduce **MyCare Overseas™** — a secure and user-friendly Beneficiary Mobile App and web-based Portal that will enhance your health care experience.

MyCare Overseas™ is a self-service tool that offers easy access to our services, including checking your TRICARE Health Plan, verifying TRICARE covered services, and accessing other reliable sources of information.

FEATURES

Innovative Self-Service Features to Help Improve Your Patient Experience

24/7 Assistance

Quick access to the local Near Patient Team (NPT), the Global First Call Desk, the Beneficiary Support Center, and Technical Support.

Chat

Chat directly with your NPT! Chat is available Monday through Sunday, 08:00-20:00 local time in all Near Patient Program locations*.

My Appointments & Referrals

Keep track of your appointments and view provider contact details. Easy check of referral status and issued authorizations.

Healthcare Finder

Intuitive search tool which assists you in finding a TOP Network Provider.

Country Information

Useful country information such as emergency numbers, medical risk ratings and cultural tips.

My Medical Translations

Submit request for Medical Records Translations and download translated documents. **Note:** Applicable for TOP Prime and TOP Prime Remote ONLY.

Translation Help

Local language support via Microsoft Translate or easily connecting with real-time telephonic language assistance.

My Plan & Claims

Easy check of TRICARE Health Plan enrollment as well as useful links to TRICARE covered services and a direct link to the TOP Beneficiary Secure Claims Portal.

* International SOS' Near Patient Teams are available in Bahrain, Benelux (Belgium, Netherlands, Luxembourg), Germany, Greece, Italy, Japan, Poland, Romania, South Korea and Spain. Chat is available to all TRICARE Prime Overseas and TRICARE Prime Remote Overseas beneficiaries enrolled in the Near Patient Program, who have had at least one authorization issued after January 1, 2020. To initiate a chat, click on "24/7 Assistance" and then "Chat Now" in the "My Local Care Team" section. If you are unable to access the Chat please call TOP Regional Call Center on the 24/7 toll-free number.

MYCARE OVERSEAS BENEFICIARY MOBILE APP & PORTAL

SUPPORTING THE PATIENT JOURNEY

The MyCare Overseas™ Beneficiary App and Portal was developed based on actual feedback from TRICARE beneficiaries to address pain points, personal needs, and frustrations that may occur when trying to access health care overseas. This results in quicker access to clinical and non-clinical professionals who are dedicated to helping beneficiaries navigate their overseas health care experience.

ACCESSING MYCARE OVERSEAS™ BENEFICIARY APP AND PORTAL

To access the MyCare Overseas™ Beneficiary App and Portal, simply download the app onto your mobile device and register. This provides secure access to all relevant information and timely notifications, for the best experience of care.

The MyCare Overseas™ Beneficiary App and Portal is the entry point for all TRICARE Overseas health care services and streamlines access to a convenient, easy-to-use application. This means TOP beneficiaries are empowered to get the information they need when they need it. Beneficiaries can fill out an important Episode of Care feedback form, set up reminders about upcoming medical appointments, access and download International SOS authorizations, locate health care facilities on a map, access translation assistance, or obtain help with follow-on care or other medical instructions.

Scan the QR code below or click on the App Store or Google Play buttons to download the new MyCare Overseas™ Beneficiary App!

Alternatively, to access the new MyCare Overseas™ web-based Portal using your personal computer or laptop, visit <https://top.internationalsos.com/beneficiary>

KOREAN HOSPITALS AND INTERNATIONAL CLINICS

Most Korean hospitals feature international clinics staffed with English-speaking personnel to assist you. Active-Duty members are advised to wear civilian clothing when visiting these hospitals. TRICARE Prime beneficiaries are required to obtain a referral before visiting a Korean network hospital, except in cases of urgent or emergency care.

When you visit one of our Korean Network Hospitals, you can expect a modern environment equipped with the latest technology, similar to what you would find in the United States. Most signs will be in Hangul, the Korean language, but they will also include English translations to help international visitors navigate the facility. Many staff members have a basic understanding of English and can communicate effectively if you speak slowly and clearly. Our network providers are committed to understanding your needs and concerns while providing care. We kindly ask for your patience and cooperation with hospital staff as they work to ensure you receive timely assistance. Many hospitals also have interpreters available during regular business hours. If you need help, the international clinic is ready to assist and ensure clear communication, reducing unnecessary stress.

The Brian D. Allgood Army Community Hospital (BDAACH) Managed Care Division is dedicated to helping you receive the best care in a patient-friendly environment. If you encounter any difficulties or have concerns regarding your care at a Korean Network Hospital, please reach out to us for assistance. You can contact the Managed Care Division at DSN (315) 737-1433. To call a DSN number from your cell phone, dial 0503-337-1433.

We are here to provide our community across the Peninsula with exceptional, patient-friendly access to healthcare.

EMERGENCY CARE AFTER HOURS

When seeking emergency care at a Korean Network hospital after hours, please note that international clinics may be closed. However, some hospitals offer a 24/7 English-speaking service, and you can find these contact numbers in this handbook on each hospital's information page. Typically, the emergency room will also reach out to an English-speaking representative to assist you. In case of an emergency, you can call the TRICARE overseas contractor, International SOS at 080-429-0880 for interpretation services or additional support.

If you are a TRICARE Prime beneficiary, Korean Network hospitals will handle claims on your behalf. For TRICARE Select beneficiaries, be prepared to pay 100% of the costs upfront and then file a claim for reimbursement. Please refer to page 67 for details on the claims process. It is essential for all beneficiaries to obtain a diagnosis from their doctor for claims purposes. If you purchase medication, you will need both the doctor's prescription and a pharmacy receipt for claims processing.

OUTPATIENT HEALTH CARE

If you are receiving outpatient care and have an appointment scheduled, please be aware that unexpected delays may occasionally occur, such as in the case of more urgent cases. However, you will generally be seen promptly. Most Korean Network hospitals serve a large community and strive to ensure that every patient receives the best possible healthcare. It's advisable to bring something to read or an activity to pass the time in case you experience a brief delay.

All Korean Network hospitals offer cashless/claimless services for TRICARE Prime beneficiaries. Please refer to the hospital information pages to identify which hospitals file claims for TRICARE Select beneficiaries.

INPATIENT HEALTH CARE

If you are admitted to a Korean hospital, you may share a room with another patient or have a private room. Please note that TRICARE does not cover private rooms unless a semi-private room is unavailable at the time of admission. If you are in a private room and a semi-private room becomes available, you may be required to move. The hospital staff will assist you in transferring your belongings to your new room upon request.

During your stay, a nurse consultant from your local Military Treatment Facility (MTF) will follow up with you to coordinate discharge planning and assess any special needs to ensure a smooth transition. In Korea, it is customary for family members to care for their relatives during their hospital stay. Depending on the patient's condition and age, family members or a Soldier's Chain of Command may provide a non-medical attendant to assist with daily activities during the patient's stay. If you are not accompanied by a family member or attendant, please inform the international clinic staff for assistance. Most hospitals recognize the need for additional support and will do their best to accommodate your needs..

CULTURAL AWARENESS

We aim to ensure continuity of care and a seamless healthcare experience between our Military Treatment Facilities (MTFs) and the Korean hospitals within our network. However, we acknowledge that cultural differences may arise.

For instance, the food at a Korean hospital may differ from your expectations, even for the Western menu, if available. You may also notice that medical staff do not always wear gloves during every procedure as is common in the U.S. Additionally, many hospitals do not permit fathers to be present during childbirth, and no host nation hospitals allow family members in the room during a C-section. You might find that your stay at a Korean network hospital is longer than what you would experience in the continental U.S. due to different medical practices and approaches.

Visiting hours at many hospitals are restricted, so please be mindful of and respect hospital policies to allow patients the rest they need. If you share a room with another patient, it's best to avoid playing loud music (consider using earphones) and, if you need to make a phone call and are able to walk, we recommend using the common area. Additionally, please refrain from using strong aftershaves, lotions, colognes, or perfumes, as some patients may have allergies or sensitivities to strong scents.

Korean doctors may engage less with patients regarding their case management. Discussions with patients and their families can be limited, and doctors may come across as directive or uncommunicative. This may be due to limited English proficiency or a reluctance to speak English. We encourage you to be patient and work towards building a positive relationship with your Korean doctor. Many physicians in Korea have received training abroad and are increasingly aware of the unique needs of American patients. Remember that all healthcare professionals share the same goal: to provide the highest quality of care and help you achieve optimal health.

The staff at Brian D. Allgood Army Community Hospital continuously collaborates with TRICARE International SOS and Korean network hospitals to ensure that our network providers adhere to appropriate standards of care. Please feel free to communicate any questions or concerns with your care team.

MEDICAL RECORDS FROM KOREAN NETWORK HOSPITAL

Your Korean doctor is aware that your Military Treatment Facility (MTF) provider will require a report on your care. If you are a TRICARE Prime beneficiary, the Korean network hospital will send your medical records to TRICARE International SOS, which will then forward translated records to your MTF. For outpatient reports, please allow up to 30 business days after your appointment for the translated medical records to be uploaded to the referring MTF.

If you are a TRICARE Select beneficiary enrolled in TRICARE Plus, you are responsible for requesting and delivering your medical records to the nearest MTF for uploading into the electronic medical records system and for translation services to ensure continuity of care. If there is a service charge for issuing your medical records, please note that this fee is not reimbursable under TRICARE, so ensure that you pay it separately.

Additionally, please make sure to provide any CDs containing X-rays, CT scans, MRIs, ultrasounds, etc., to your enrolled MTF so that they can be uploaded into your electronic medical records.

AFTER GIVING BIRTH IN A NETWORK HOSPITAL

Ensure that your child is enrolled in DEERS. To register your child in DEERS, you must:

1. Get the birth certificate from the Korean hospital
2. Register your baby in the Defense Manpower Data Center (DEERS). You won't need a Social Security Number (SSN) to register your child in DEERS; however, you will need to update your child's DEERS information as soon as you obtain the SSN
3. Register your baby with the Patient Administration Division (PAD)
4. Enroll your baby in a TRICARE plan
5. Apply for your child's SSN. For more information on applying for an SSN, go to the Social Security Administration website at www.ssa.gov or call **1-800-772-1213**

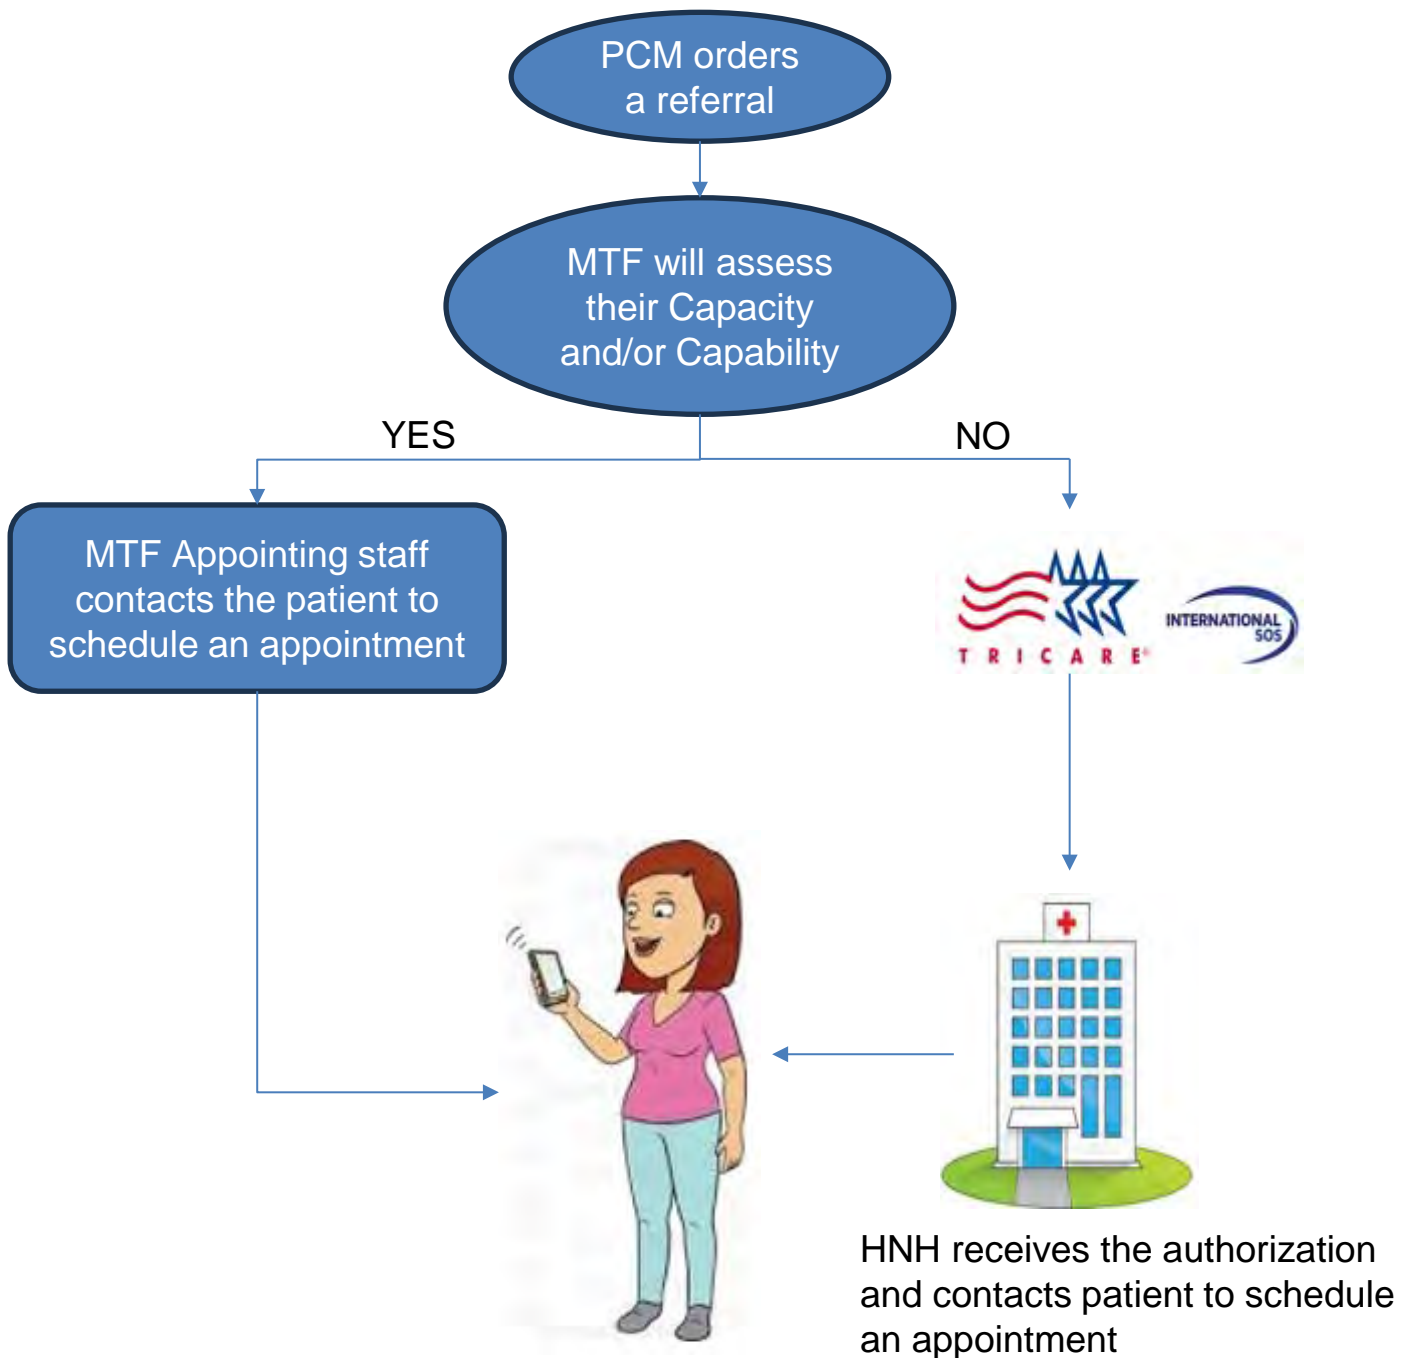

NAVIGATING THE KOREAN HEALTH CARE SYSTEM FOR ROUTINE CARE

All TRICARE Prime beneficiaries must have a referral from their Primary Care Manager (PCM) for TRICARE to pay for routine, specialty care, non-urgent and non-emergency visits to a Korean hospital.

TRICARE Select and TRICARE For Life patients do not require a referral from a PCM to receive benefits under their plan when receiving care at a Korean hospital. This includes TRICARE Select and TRICARE for Life patients who are enrolled in TRICARE Plus.

REFERRAL PROCESS

NAVIGATING THE KOREAN HEALTH CARE SYSTEM URGENT AND EMERGENT CARE

Urgent Care refers to medical attention needed for non-life-threatening conditions that still require treatment within 24 hours. Emergent Care, on the other hand, involves situations where there is a risk to life, limb, or eyesight if immediate care is not provided.

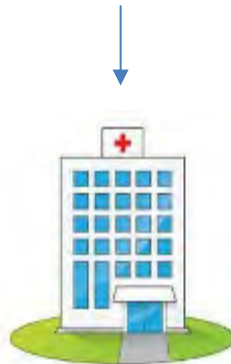

If urgent or emergent care is unavailable at the Military Treatment Facility (MTF), patients should seek assistance at the nearest network hospital or emergency room. Referrals are not required for urgent and emergent visits for TRICARE Prime beneficiaries. If you are enrolled in a TRICARE Prime plan, please contact your primary care manager within 24 hours or by the next business day after receiving emergency care.

URGENT/EMERGENT CARE PROCESS FOR TRICARE PRIME BENEFICIARIES

Patient requires
emergent/urgent/after hours
care.

Patient may use this handbook, the Global Nurse Advice Line or MyCare Overseas App or contact International SOS to locate the nearest network hospital. In the case of an emergency, if no network hospital is available, proceed to the nearest Emergency Room

Proceed to the nearest Emergency
room or Network Emergency room

Patient calls their PCM within 24
hours or the next business day
following discharge from HNH

PROOF OF TRICARE ELIGIBILITY

Always carry proof of TRICARE eligibility and know what type of TRICARE Plan you have.

1. Go to MilConnect to <https://milconnect.dmdc.osd.mil/milconnect/>
2. Click on “Obtain proof of health coverage” link
3. Login with DS Logon, CAC or DFAS myPay Password.
4. Under proof of coverage, select family member
5. Click on the “Generate” button
6. Click “Open” on the “My Eligibility Letter” PDF document
7. Print and carry with you to the Korean network hospital

If you have any issues downloading your eligibility letter, come to the TRICARE Service Center for assistance.

LANGUAGE SERVICES

Navigating a Korean hospitals without understanding the language can be frustrating for anyone. Feel free to utilize the 24/7 language interpretation services listed below while you are visiting Korean hospitals.

1. International SOS at 080-429-0880, select option 1, and ask for an interpreter
2. MyCare Overseas App: local language support via Microsoft translate or easily connecting with real time telephonic language assistance.

COURTESY SHUTTLE SERVICES

Transportation in Korea can be difficult for newcomers. It takes some time to understand public transportation such as the subway, train, and city bus system. If you have a medical appointment at a Korean network hospital, your MTF provides limited courtesy shuttle services to and from your appointment at the Korean network hospital. Courtesy shuttles run during the daytime; therefore, it is recommended that you schedule your shuttle appointments accordingly. Call the listed number below in your area for information about courtesy shuttle schedules:

Area I	Mobile 010-9000-0674
Area II	Not Available
Area III	DSN 737-1433 or 0503-337-1433
Area IV	Mobile 010-5555-3342

Enrollment, Referral and Claims

Contact your local TRICARE Office for assistance with enrollments, referrals and claims.

Enrollment:

Area I & III & IV – BDAACH Managed Care Division 737-1433 or 0503-337-1433
TRICARE Office at Maude Hall 737 5781 or 0503-337-5781
737-5782 or 0503-337-5782
737-5178 or 0503-337-5178

Area II (Prime remote) International SOS 080-429-0880 (Op#4)
or DSN 99-080-429-0880 (Op #4)

Referrals and claims:

Area I, III and IV – BDAACH Managed Care Division 737-1433 or 0503-337-1433

Subway: take subway line 1, near by exit 3

get off from SongHyen Station (Subway driver usually announces the name of the stop in English)

International clinic: Main building (Hospital building on the map), 1th floor

HOW TO FILE A TRICARE OVERSEAS CLAIM

Follow the step-by-step instructions below to successfully file a TRICARE claim for care received overseas:

1) Fill out DD form 2642. Please be sure to file inpatient, outpatient and pharmacy claims separately. If you are filing claims for multiple family members, make sure to use separate DD forms and ensure the correct receipts are attached for each family member. *(Make sure all 13 boxes are completely filled out)*

2) Attach your itemized medical receipt to the DD form 2642. It contains charges for each service provided. Translation to English is not needed.

- ✓ Attach proof of payment (credit card statement, cancelled check, electronic funds transfer, cash withdrawals, etc.) for payments over USD 1,000.
- ✓ Please include the diagnosis, describing why care was needed in box 8a.

3) Mail your claims to:

Active-Duty Service Member

TRICARE Active Duty Claims
P.O. BOX 7968
Madison, WI 53707-7968
USA

Non-Active-Duty Service Member

TRICARE Overseas Program
P.O. BOX 7985
Madison, WI 53707-7985
USA

Note: Make copies of everything you plan to mail.

4) Claim support:

- a. TRICARE Overseas ISOS Toll Free: 080-429-0880, option #2 (Claim status check)
- b. Online Claims: <https://www.tricare-overseas.com>

5) If you need additional support or have questions, please visit your local Beneficiary Counseling and Assistance Coordinator (BCAC) located:

- a. Area III - Managed Care Division (2nd Floor) at Brian D. Allgood Army Community Hospital, Camp Humphreys
- b. Area IV – Wood Clinic at Camp Walker

Note: We encourage our beneficiaries to file your claims to TRICARE ISOS Overseas as soon as possible after receiving care.

USING OTHER HEALTH INSURANCE

If you have health insurance other than TRICARE, it is referred to as “Other Health Insurance” (OHI). Your OHI will be billed first.

Please contact TRICARE ISOS at 080-429-0880 Option 2 and inform your other health insurance.

If TRICARE receives your claim first before your other health insurance processes the claim, TRICARE will deny it or will take back any payments made. They will only reprocess your claim after your other health insurance does.

Please follow all guidance on the use of your other health insurance for care and filing claims.

If your other plan doesn't cover the entire cost, you may file a claim with TRICARE.

List of Accepted OHIs at Korean Hospitals in AREA I and II

OHI accepted at HNH is subject to change at any time; Please contact hospital to confirm.
